Figma	● ● ● ● ●		

Languages

- Ukrainian language - native
- Slovak language - B2
- English language (Reading) - B2
- English language (speaking) - B1

Projects

Cool chat

A common analogue of chat with calls, like WhatsApp, Telegram, etc.

I am responsible for:

1. front-end and UX/UI design using figma.

I implemented:

1. login and registration using API.

2. support for sending/deleting messages based on WebSocket using the official EchoLaravel library.

3. user search, adding/deleting chat.

And the project continues to develop.
